## **National News – Significant Events**

### **Las Vegas Police Officer Shot in Hand in Ambush Attack**

(Reuters) A Las Vegas police officer was shot in the hand while sitting in his patrol car with a partner on Sunday after being ambushed by a man with a handgun, police said. The suspect has been taken into custody, and the officer sustained non-life threatening injuries in an attack that comes in the wake of one deputy being fatally shot while filling his patrol car's gas tank outside Houston, Texas and another police officer being killed in pursuit of three suspects in rural Illinois. Their deaths marked the 23rd and 24th fatal shootings of officers in the United States this year. Relations between the public and police departments have been strained in recent months by cases in which officers used excessive force, sometimes fatally, in arresting suspects.

### **Austria Plans to End Measures Allowing Migrants From Hungary and Move 'Towards Normality'**

(Reuters) Austria said on Sunday it planned to end emergency measures that have allowed thousands of refugees stranded in Hungary into Austria and Germany since Saturday and move step by step "towards normality". Austria had suspended its random border checks after photographs of a Syrian toddler lying dead on a Turkish beach showed Europeans the horror faced by those desperate enough to travel illegally into the heart of Europe, which is deeply divided over how to cope. After 71 people suffocated in the back of a truck abandoned on an Austrian highway en route from Hungary, and as thousands headed from Budapest towards Austria on foot, Vienna had agreed with Germany to waive rules requiring refugees to register an asylum claim in the first EU country they reach. Austrian Chancellor Werner Faymann said that decision was being revised following "intensive talks" with German Chancellor Angela Merkel and a telephone call with Hungarian Prime Minister Viktor Orban, bitterly opposed to the waiver. "We have always said this is an emergency situation in which we must act quickly and humanely. We have helped more than 12,000 people in an acute situation," Faymann said. "Now we have to move step by step away from emergency measures towards normality, in conformity with the law and dignity." Hungary laid on over 100 buses to the border on Saturday night after Austria said it had agreed to the emergency measures, to the relief of thousands of migrants and refugees stranded in Budapest after traveling through the Balkans and Greece many of them fleeing civil war in Syria. Others set off from a station to make the 170-km (110-mile) journey on foot. A platforms filled up again on Sunday. Germany has said it expects to receive 800,000 refugees and migrants this year, and urged other EU members to open their doors. It decided to free up additional three billion euros (\$3.35 billion) for federal states and municipalities to help cope with the influx, a joint statement by the ruling coalition said. Merkel's decision to allow the influx has caused a rift in her conservative bloc, with her Bavarian allies saying she had pushed ahead without consulting the federal state administrations dealing with the problem on the ground. The political rift is greater across Europe, with Hungary's Orban accusing Berlin of encouraging the influx. The United States came under pressure to do more to help. David Miliband, head of the International Rescue Committee and a former British foreign secretary, called on Washington to bring out "the kind of leadership America has shown on these kind of issues" in the past. Gulf states Qatar, Kuwait, Bahrain, Saudi Arabia and the United Arab Emirates have come under criticism for officially taking in zero refugees. Some EU states say the focus should be on tackling the violence in the Middle East that has caused so many to flee.

## **Labor Day Weekend BART Transbay Tube Closure**

BART has shut down train service between Oakland and San Francisco over the Labor Day weekend, September 5-7, so workers can rebuild a section of track near the Transbay Tube. Train service stopped at the end of service Friday, September 4, and will remain closed until the start of service on Tuesday morning. BART also wants to remind people since Monday is a holiday, BART will operate on a Sunday schedule that day.

- Nearly 100 buses will continuously shuttle passengers between 19th Street BART Station in Oakland and San Francisco's Temporary Transbay Terminal.
- The West Oakland BART Station will be closed during the shutdown. If West Oakland is your home station, there will be a shuttle available to take you to 19th Street/Oakland station.
- Additional information regarding the modified BART schedule can be accessed here:

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:**

#### **Eureka Weather:**

Fair weather will continue across NW California for the next few days. Warmer and drier conditions will prevail each day across the interior through Friday. By Saturday a cooler air mass will begin to affect NW California bringing cooler afternoon temperatures and possibly some clouds.

#### **Medford Weather:**

Upper level ridging will build in over the west coast today and remain in control of the region for at least the next week. Meanwhile, a thermal trough will establish just to the south. A weak impulse will pass overhead early Tuesday morning, and may provide just enough energy for an inland marine push that morning, but generally offshore flow and clear skies will remain in place through the week. Temperatures will gradually warm through the week, and although highs today will be generally near normal for this time of year, highs will reach up to 15 degrees above normal by late in the week, and triple digits will not be out of the question Friday for some of the usually warmer locations within the forecast area.

#### **Reno Weather:**

High pressure over the desert southwest will lead to very warm and dry conditions. Afternoon highs will approach record levels toward the end of the week. Periods of smoke and haze will be possible through Mono County northward to Highway 50 due to the rough fire.

#### **San Francisco Weather:**

Daytime temperatures will continue on a warming trend through at least midweek as high pressure builds over the region. As a result, afternoon temperatures will be about 10 to 15 degrees above seasonal averages while the dry air mass will allow for decent cooling during the overnight hours. Dry weather conditions are also expected through the upcoming weekend.

# WEATHER

## WEATHER SYNOPSIS BY REGION:

### **CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:**

#### **Sacramento Weather:**

Widespread triple digit high temperatures will return to the Central Valley beginning Tuesday and continue through the week. The dry air mass and generally light winds will allow for relatively mild overnight lows

#### **Hanford Weather:**

Mostly clear skies and increasing temperatures are expected for the next several days as high pressure moves in over the region.

### **SOUTHERN CALIFORNIA:**

#### **Los Angeles Weather:**

Weak onshore flow and a building ridge of high pressure will bring a warming trend this week. Temperatures will be well above normal for much of the week, with triple digit heat expected for the valleys and other inland areas. Slight cooling is possible by late in the week and the weekend as the ridge of high pressure weakens.

#### **Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:**

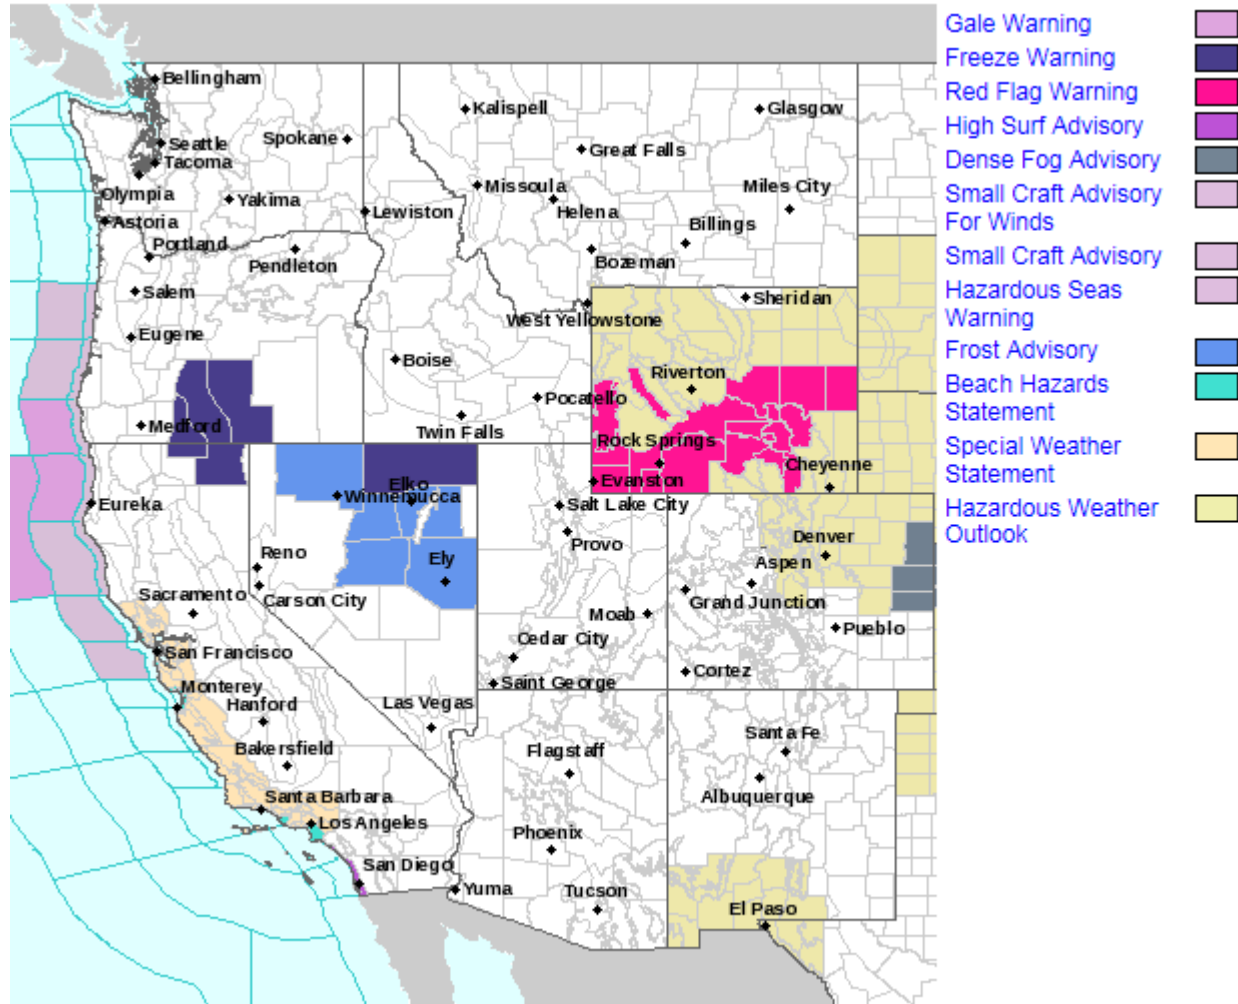

High pressure aloft will bring a warming trend this week. Tropical moisture will slowly increase today and Tuesday, with a more significant influx possible on Wednesday and Thursday. This will bring a slight chance of thunderstorms to the mountains and deserts during the afternoon and early evening for today and Tuesday. The chance for afternoon and evening thunderstorms may increase somewhat for the mountains and deserts during the afternoon and early evening for Wednesday and Thursday. High pressure aloft will begin to weaken for late next weekend into early next week with a cooling trend.

#### **Southeast California Weather:**

Moisture feeding north into Arizona and the Colorado River Valley may once again touch off a shower or thunderstorm today especially in the afternoon or evening. The chance of a shower or thunderstorm will linger across Mohave County into Tuesday. Another push of moisture from the south may bring a shower or thunderstorm to southern parts of Mohave and San Bernardino Counties on Wednesday and Thursday. Temperatures will return to above normal levels today and remain above normal through the end of the week.
